

One Day

Tekst & Muziek : Stevie Ann, Jochem Fluitsma & Eric Van Tijn

Bullets flying over our heads
I just wanna go out and play
But I'm part of this grown up game

The tender words my mother says
Stay inside and be good
I just hope this war will be over soon

And then I hide my tears
I don't want anyone to see
I don't care about anything but
For me and my family to be free

One day these streets will be mine again
No soldiers that will tell us what to do
I can't believe how it got this far
Why can't we just unite together
Don't wanna fight for who we have to be
I want everything to be just like it was before

Now that I've created my own world
I get lonely every now and then
But I pray that I'll be fine in the end

And then I hide my tears
I don't want anyone to see
I don't care about anything but
For me and my family to be free

One day these streets will be mine again
No angry soldiers that will tell us what to do
I can't believe how it got this far
Why can't we just unite together
Don't wanna fight for who we have to be
I want everything to be just like it was before
